

# **BOTANIST / FIELD ECOLOGIST**

## **UBM Ecological Consultants, Sydney**

UBM Ecological Consultants Pty Ltd  
[www.urbanbushland.com.au](http://www.urbanbushland.com.au)

UBM Ecological Consultants is a small well-established company with more than 20 years experience in Sydney and country NSW. We are seeking to appoint an experienced botanist/field ecologist to join our team on a part time or contract basis, carrying out surveys in Sydney, Central Coast, Blue Mountains, Hunter Valley and the Western Slopes. Anticipated work commitment will be 3 days/week, with the potential to become a full time member of staff in the future.

The successful applicant will be responsible for work on a wide variety of projects for clients in the private and public sectors. This work will include desktop survey and research, on-ground field surveys, undertaking the 7-part Test and report writing.

### **ESSENTIAL**

- Good degree in Botany or Environmental Science with specialisation in Australian flora;
- Experience in field-based flora survey techniques and conservation assessment, with a good knowledge of local (Sydney Basin) ecological communities,
- Good working knowledge of relevant State and Federal government policies and environmental legislation,
- Research skills: fluency in using web-based data and information sources;
- Excellent report-writing skills in plain English;
- At least 2 years previous *relevant* work experience, including demonstrated liaison and communication skills, and
- Current driver's licence.

### **HIGHLY DESIRABLE**

- Skills in the use of GIS (MapInfo or ESRI);
- Fauna survey skills and habitat assessment
- Current OH&S Induction Card (Construction).

A competitive remuneration package will be negotiated with the successful applicant.

Applications, **which must address the above listed criteria** to: Judith Rawling, Managing Director, UBM Ecological Consultants: email [ubmc@urbanbushland.com.au](mailto:ubmc@urbanbushland.com.au) .

Enquiry prior to submission of application is essential. Contact as above, or ring (02) 8883 2688 / 0414 886 219.
